Hello in 2006 to Phi Gamm friends from Dexter, Ralph Waite:

Perhaps a brief history of my world will bring us up to date.

I could not graduate in 1961 because of a lost semester due to a ruptured appendix and later adhesions.

In 1961 I married Fran Keitz we lived in State College to complete my remaining semester - she did not use her dietary scholarship to Mass General Hospital.

In 1962, I received my BSME and became a sales Engineer for Reliance Electric of Cleveland Ohio. They assigned me to Rochester, NY, and we found the Bartoo family lived around the corner in Webster. In 1968, we returned to Cleveland until 1972 when we went to Baltimore MD. In 1973 we returned to Cleveland until 1979. Exxon bought Reliance Electric in 1979 and we moved to St Louis MO.

I left Reliance in 1980 to join Allen Bradley. Shortly thereafter Rockwell acquired AB.

In 1989 we left big corporation for a Houston TX startup software business. There were several ventures until the VC money ran in 1999. I and now retired. But still do some dba businesses: <http://Cimation.com> plus Pemex Mexico under <http://accessware.org>

In 2000 we moved to Mystic CT to be closer to our kids, Dr. Douglas in New York city, Deborah in Boston and Cape Cod area, and Jennifer in the Phila area. The seven grandchildren are moving into teenager age now so we do not see as much of them.

Starting in Mystic, Fran has become is an active and successful William Raveis real estate agent. Believe me she knows Watch Hill RI very well. Prior to this she was a Director at Intracare Hospital in Houston. See her website for her details:
